The Legislative Assembly was opened by Royal Commission at the Court House on Saturday at Noon.

The Commissioners H. H. Mateo Kekuanaoa the Venerable father of the King and His Honor C. H. Allen Chief Justice and Chancellor of the Kingdom left the Palace under a Salute from Punch Bowl attended by the Staff Officers and escorted by the Cavalry under the Command of Major C. H. Judd. At the Court House the Household Troops were drawn up in dress Parade.

On the Judges Platform was placed the Throne Chair covered with the Mantle and Supported on either Side by the Royal Kahilis

Her Majesty Dowager Queen Emma, and Her Majesty Dowager Queen Kalama, with the Alii of the Kingdom and the House of Nobles, were seated on the right the House of Representatives in front and the Acting Minister of the United States, H B M's Commissioner & Consul General H I M's Commissioner & Consul by the Chancellier and the Consular Corps on the left of the Commissioners.

The Commission of His Majesty having been read by Justice Davis, in Hawaiian, and in English by the Clerk of the House the address from the Throne was delivered by the Commissioners; as follows:

Nobles and Representatives:

A great calamity has befallen the Island of Hawaii. My duty to my Subjects has called me away from my Capital, and I have delegated a Royal Commission presided over by my well beloved father to open the Regular Session of the Legislature.

Until the last few Weeks, my Kingdom has enjoyed uninterrupted Prosperity. Peace, quiet, and abundance had prevailed. Let us bow

humility to the will of God Almighty, whose hand is now heavy upon us, and let us with brave hearts, and well-timed Charity relieve the distress of those of our Countrymen who have been thus suddenly and severely afflicted.

Our relations with foreign powers continue to be most satisfactory. The important treaty with the United States of America which was considered at the last extraordinary Session of the Legislature, has not yet received the ratification of the President.

My Minister of Foreign Affairs will furnish you with such intelligence of the progress of the negotiation as may be from time to time received.

Preliminary steps have been taken by my Government to secure the conclusion of a Treaty with the Confederation of Northern Germany, to be substituted for our present treaties with Bremen and Hamburg. Some of our treaties have been denounced; changes are contemplated in our stipulations with England and France; and I confidently hope that the result of these various negotiations will increase our intercourse with Europe, as the anticipated conclusion of an Convention of Reciprocity will develop our trade with the great Republic of the United States.

Our negotiations with Japan have so far been successful. Important and favorable results may be expected from the opening of trade with and immigration from that Kingdom.

My Minister of the Interior will inform you of the steps taken by the Bureau of Immigration towards securing Valuable additions to our Population and laborers for our fields.

An increased appropriation is applied for, to enable my Government to solve by practical experiment, the question of immigration, whose importance to the Kingdom will not escape your attention.

You will be duly advised of the measures adopted by the Board of Health during the last two years. Owing in a great measure to the exertions of the Board the spread of the disease of leprosy has been checked.

As soon as practicable,

My Government will inform you of the extent of the damage done on Hawaii by the last Volcanic Eruption. It is hoped that it will not prove so extensive as to require any considerable curtailment from the appropriation for public improvements in other Islands.

Our finances are in a most prosperous condition. The Report of my Acting Minister of Finance will furnish you with all the necessary information on the State of the Treasury. Our credit stands high, our public debt is greatly reduced, and a considerable surplus is on hand.

Should the Treaty of Reciprocity acquire the force of law some further legislation may be necessary.

It may be well for the Legislature to enquire how far the prosperity of this Kingdom, and the development of its resources, may be promoted by judicious assistance to the line of Steamers plying between this Port and California as well as to our Inter Island Steam Navigation.

The Administration of Justice has been conducted with fidelity and impartiality.

It is thought that the public convenience will be promoted by changes in the time of holding certain terms of the Court. My Attorney General will submit to you the necessary Bill for the accomplishment of that measure.

I refer you to the Report of the President of the Board of Public Instruction for the details of the work performed by that Board. Liberal and intelligent assistance has been granted on application, to all those who devote their labors to the education of the people.

New School houses have been built, in many places the Sexes have been seperated and a System of impartiality combined with a healthy Competition, has contributed largely to the cause of intellectual improvement.

Nobles and Representatives:—

I rely upon your enlightened patriotism and upon your loyalty to our institutions. You will co-operate with me in seeking the welfare of the Nation, and in providing for its wants.

I pray God Almighty the Ruler of

Madame, to relieve us in our troubles to guide us in prosperity, and to help me in maintaining inviolate, the Dignity of my Crown and our National Independence. ... And

We now declare the Legislature of the Kingdom opened. —

Honolulu June 16 1868

To H H M. Kekauonoa
President Legislative Assembly
Sir,

The Committee on Commerce to which was referred a Bill to Amend 597 & 691 of the Civil Code relating to the Rates of Pilotage for the Harbor of Honolulu: beg to Report as follows

The Harbor of Honolulu

Enjoys at present the reputation of being the cheapest Port in the Pacific Ocean, and the Committee are of opinion that no changes ought to be made unless for serious reasons. Any increase in the Port Charges ought to be avoided, as the fact of having increased them would be used against us by our Competitors at San Francisco. Where already Pilotage for Whalers has been reduced to our Rates of $1 per foot in opposition to us. The only Valuable Reason for increase of the Rates of Pilotage is: that the income under the present Rates is insufficient to pay Competent Pilots.

But the Committee instead of increasing the present Rates would Recommend that the Pilots like all other Government Officers be paid out of the Treasury such a Sufficient Salary as may seem proper to this Assembly. And that all Receipts for Pilotage be paid into the Treasury.

By such an arrangement the Government would not likely be losing to any great Amount. And might even be gainers. For the last two years the Pilotage has Amounted to $10680:25 for the two Pilots or to $2670 - for each Pilot per year.

The necessary expenses for Boats and Boats Crew to be paid out of above amount is about $600 per year for each Pilot

Respectfully Submitted
